SECOND:

MOTION: Carried

Item #B: Discuss WSPS endorsement for Residential Plumbers

There was a discussion about letting Residential Plumbers obtain a WSPS endorsement. Mr. Brand wanted to give up and coming plumbers something to keep them interested in the craft. Richard Paulk stated he was not in agreement with lowering any experience requirements for the WSPS endorsement. Chairman, Joe Maranto, read out the requirements set forth by ASSE and the revised statute from Louisiana Law. After reading the statute and requirements, Chairman Maranto said there was nothing the board could move on since the WSPS endorsement requirements are set by law and ASSE/ABPA

requirements. Jason Martin suggested adding a hyperlink to the Louisiana State Plumbing Board website which shows the current laws and requirements for a WSPS endorsement.

Recommendation: No recommendation since the Board can't move on this.
